

Github repo ur1

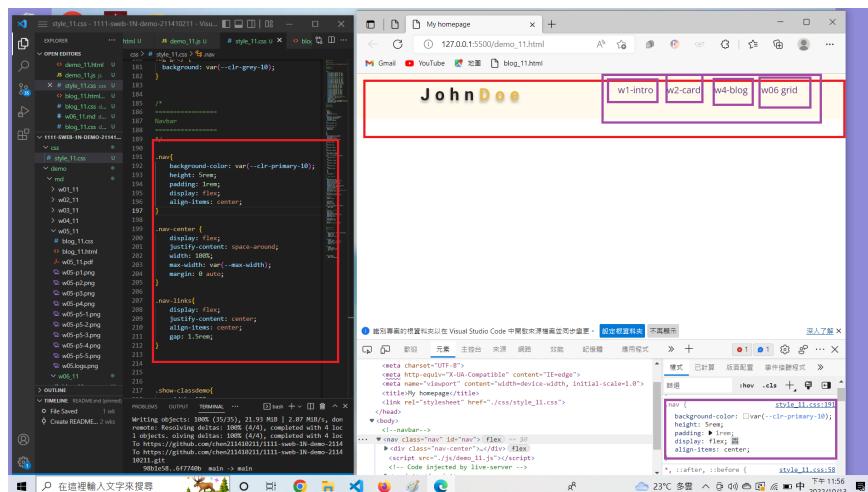

My Github repo

W06-P1: add 3 breakpoints for different devices

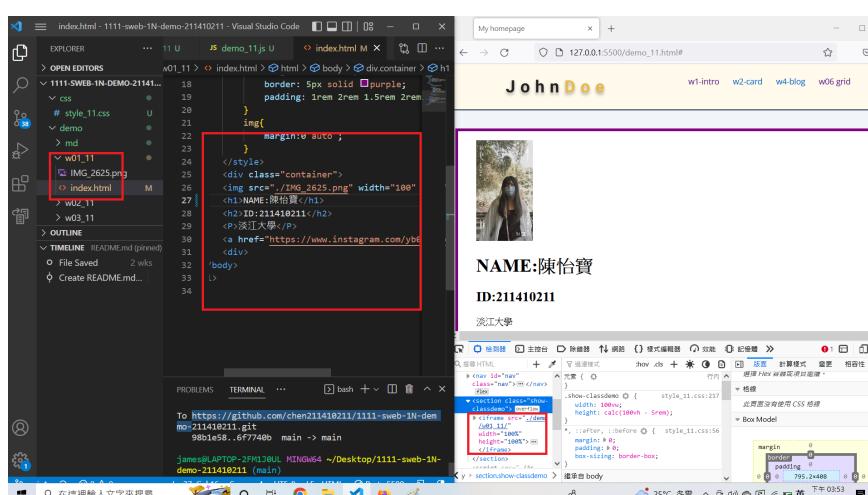

W06-P2: add navbar for demo links

W06-P3: run 4 classdemo one by one

The screenshot shows a developer's environment with multiple windows open:

- VS Code (Left):** The code editor displays the file `card_11.html`. The code is a simple card component with three buttons. A red box highlights the entire code block.
- Terminal (Bottom Left):** Shows the command to run the file: `To https://github.com/chen21140211/1111-sweb-1N-demo#main`.
- Browser Preview (Bottom Right):** A browser window titled "My homepage" shows the rendered card component. The card has a blue header with the text "John Doe". The main content area contains the text "First Card" and "Lorem ipsum, dolor sit amet consectetur adipisicing elit. Quas, optio!". Below it is a "Sign In" button.
- DevTools (Bottom Right):** The browser's developer tools are open, specifically the CSS panel. It shows the styles applied to the "card" class, including a background color and padding. A red box highlights the "card" class definition in the CSS pane.

The screenshot shows a developer's environment with multiple windows open:

- Left Window (Code Editor):** Displays the file `blog_11.html` (line 10) and `w04_11.css` (line 1). The CSS rule `#blog_11 {crossovering="anonymous" referrerPolicy="no-referrer" ink rel="stylesheet" href="/blog_11.css"}` is highlighted.
- Right Window (Browser Preview):** Shows a landing page titled "John Doe" with a navigation bar (w1-intro, w2-card, w4-blog, w6-grid) and a main content area featuring a large image of a coastal landscape.
- Bottom Terminal:** Shows the command `git add .` being run in a terminal window.

The screenshot shows a developer's environment with multiple windows open:

- EXPLORER**: Shows project files including `photo-8.jpg`, `photo-9.jpg`, and `photo-10.jpg`. A red box highlights the file `w06_11.html`.
- EDITOR**: Displays the HTML code for `w06_11.html`. The code includes sections for blog posts and a lifestyle section. A red box highlights the `<!--Image-->` placeholder.
- TERMINAL**: Shows command-line output for cloning a GitHub repository and navigating to the directory.
- BROWSER**: A browser window titled "My homepage" shows a simple page with the title "John Doe" and links for "w1-intro", "w2-card", "w4-blog", and "w6-grid".
- PREVIEW**: A large preview window titled "Latest Blogs Using Breakpoints" shows a beach scene through a stone archway. Below it, another preview shows a close-up of a person's face. Both previews have "LIFESTYLE" and "Code" labels.
- STATUS BAR**: Shows the current file path as `l11html > blog_11.html > section.blogs > div.blogs-center` and the port number as 5500.
